- C++
- SQL
- PHP
- CSS & HTML
- PHP Laravel framework (begginer)
- ASP NET Core basics
- Version Control (Git)
- Object-Oriented Programming
- REST APIs
- Databases (MongoDB MySql PostgresSql)
- Relational Databases
- Problem Solving
- Data Structures
- Prompt engineering

Language Skills

- **Macedonian**: Mother tongue
- **English**
  - Listening: C2
  - Reading: C2
  - Spoken production: C2
  - Spoken interaction: C2
  - Writing: C2

Driving Licence

- Driving licence B

About myself

Entry-level software engineer with a B.Sc. in Information Technology & Digital Business Analytics. Strong foundation in C++, C, OOP, SQL, and Laravel, with hands-on experience building full-stack web applications and back-end systems. Demonstrated ability to learn fast, ship functional solutions, and communicate clearly in high-pressure environments through past customer-facing roles. Interested in back-end engineering, AI/ML, and data-driven product development.

Education & Training

B.Sc. Information Technology & Digital Business Analytics

10/2021 - 2025

University of Information Science & Technology "St. Paul the Apostle" | Ohrid, North Macedonia

Economic technician

08/2017 - 05/2021

SOSU "St. Cyril and Methodius" | Ohrid, North Macedonia

Address: Mite Bogoevski6000

Projects

Laravel Blog Platform | GitHub

Built a full-stack blog system using Laravel 8, implementing MVC architecture, Blade templating, and Eloquent ORM for clean data modeling. Designed reusable components, improving code maintainability and speeding up feature iteration. Implemented CRUD operations, authentication scaffolding, and dynamic content rendering. Strengthened understanding of scalable back-end architectures and production-ready patterns.

https://github.com/stefanmarkoski1/Laravel-Project

Book Exchange Project

Built a book exchange web application as a full-stack project, enabling users to add, view, and manage book listings. Implemented server-side logic in PHP with a relational database to handle persistent data. Designed a responsive HTML/CSS interface focused on usability and clarity. Published the complete codebase on GitHub to demonstrate backend, frontend, and database integration.

Work experience

Patient Care Associate

05/2025 - Current

Taskforce | Ohrid, North Macedonia

Delivered customer support across email, phone, and chat for a high-volume operations team. Handled and resolved diverse technical and product-related inquiries using CRM/ticketing tools. Identified recurring issues and escalated them to technical teams, reducing resolution time. Developed high-value skills: problem prioritization, analytical communication, trend spotting, and cross-team collaboration, directly transferable to debugging and technical troubleshooting.

Customer Service Representative

08/2021 - 08/2022

Slice | Ohrid, North Macedonia

Managed customer requests across multiple channels with consistently high satisfaction scores. Trained new representatives, improving onboarding efficiency and raising support quality. Strengthened communication clarity and stakeholder management, critical for engineering roles involving specs, requirements, and cross-functional work

Volunteering

Organization Volunteer - Startup Macedonia

01/2024 - 01/2024

Ohrid

Assisted with general coordination and greeted both participants and visitors. Assisted in organizing and coordinating events, ensuring smooth logistics and participant engagement. Provided technical support during workshops and presentations, including setting up equipment, troubleshooting issues, and supporting speakers and attendees. Gained valuable experience in event planning, teamwork, and problem-solving in a dynamic, fast-paced environment.
